Business Intelligence Student

- As a computer science student, I am enthusiastic, communicative, versatile, organized, professional, and always eager to learn.

Professional Experience

- June . 2023 – Aug . 2023** **Engineering Internship , DataRaise**
Transferring data from one application to another using Talend's REST API.
Developing a human resources dashboard using the Data Mesh methodology.
During the internship period, we achieved the following certifications. **Talend Studio Basic Talend Administration Talend Cloud**
- June. 2022 – July . 2022** **Internship in a Company with In-Depth Exposure , Sagem Com**
To create reports using the tool **Qlick View**
- July . 2021 – Sept. 2021** **Designer And Community Manager , British Council**
Multimedia and Social Media Assistant utilizing Adobe Illustrator and Adobe Photoshop tools to create visually appealing content and manage online presence.

Academic Projects

- Aug. 2023 – Oct 2023** **Development of a pipeline (continuous integration , Esprit**
 - To launch the unit tests.(**JUnite/ Mockito**)
 - Verify the quality of the source code by utilizing **SonarQube** , indicating the percentage of coverage using **Jacoco**.
 - To submit the deliverable onto **Nexus**.
 - Notify the user about the status of the build with additional details.
- Development of a pipeline (continuous delivery) , Esprit**
 - Create an image using the deliverable uploaded to **Nexus** utilizing **DockerFile**
 - To upload the created image onto **DockerHub**
 - Containerization of deliverables; using **Docker Compose** to instantiate **Spring Boot, MySQL** , and **Angular** from their respective container images.
 - To inform the user about the status of the build with additional details.
 - Tracking and visualizing data using **Prometheus** and **Grafana**

Academic Projects (continued)

Janv. 2023 – Mai 2023

■ **Dashwatch, Esprit**

Create an intelligent business solution by developing a dashboard that tracks the activities of each component within Talend. This involves collecting and processing data related to component activities. Additionally, there is an optional capability to retrieve data in real-time or near-real-time, with a suggestion to consider the ELK stack for this purpose.

Academic Background

2019 – 2022

■ **Student, Esprit University** Integrated Preparatory

2022 – 2023

■ **ERP-Business Intelligence, Esprit University** Engineering program

Skills

Languages	■ English : B2 , French : B2 , Arabic : Native
Devops	■ Vagrant,Docker, Jenkins, Azure DevOps, powerShell,Sonar, Grafana,Prometheus,Nexus
SAP	■ SAP-ABAP, SAP-FIORI, SAP-BW
Big Data	■ Apache Hadoop, Apache Spark , Hive, Cloudera, Map reduce
Coding	■ Java, PHP, Python, R, C, C++, C#, Dax,Django, Flutter, ...
Query Language	■ PL/SQL, DB NoSQL ...
Databases	■ MySQL,PostgreSQL,HSQL,SQLite,Oracle,Azure Synapse, TALEND,SISS,SASS,SRSS,Q_LICK SENSE, ELASTIC SEARCH. MongoDB
Web Dev	■ HTML, css, JavaScript, Symfony, Spring Boot, Apache Web Server, Tomcat Web Server.
Project Management	■ GitHub, GitLab and Trello
Visualization Tools	■ Power BI, KIBANA,Q_LICKVIEW
Design Tools	■ Adobe Photoshop, Adobe Illustrator

Certifications

2023

■ **Introduction to Microsoft Dynamics 365.** Coursera.

■ **Introduction to Microsoft Azure Cloud Services.** Coursera.

■ **Microsoft Azure Fundamentals AZ-900.** Coursera.

■ **Microsoft Power Bi Data Analyst.** Coursera.

■ **Foundations : Data,Everywhere : Google.** Coursera.

2020

■ **Leadership And Management in Health.** University of Washington.

2019

■ **Public Speaking,** Esprit.
